A better website for Snuggle Inn Boarding Cattery

Prepared by TOVA, Your Website Growth Partner

What we found

We reviewed http://www.snuggleinn.co.nz/ using publicly available information:

- **Not mobile-friendly.** The page has no responsive viewport tag, so phones show a shrunken desktop layout.
- **No easy way to get in touch.** No tap-to-call link and no enquiry form on the homepage.
- **No search description.** No meta description, so Google chooses random page text for search results.
- **Images missing descriptions.** 19 of 19 images have no alt text (accessibility and SEO).

Three improvements we would make

1. Make the site work beautifully on mobile
The page has no responsive viewport tag, so phones show a shrunken desktop layout.

2. Add tap-to-call and an enquiry form
No tap-to-call link and no enquiry form on the homepage.

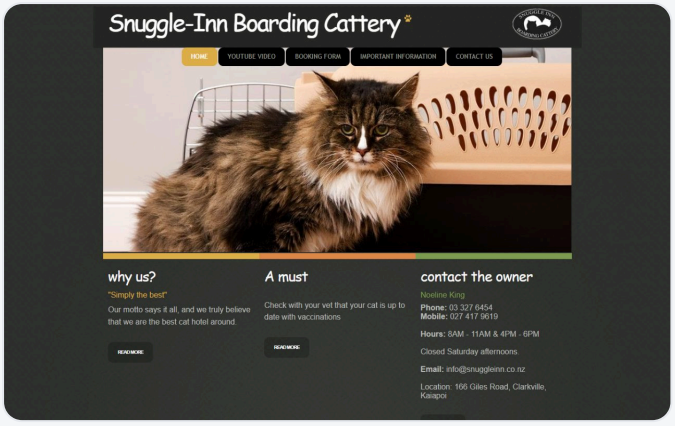

3. Improve how the business appears in Google
No meta description, so Google chooses random page text for search results.

Your homepage concept

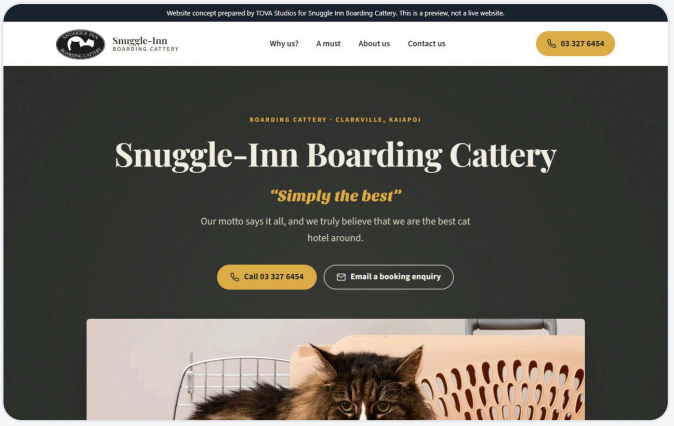

We have already designed a modern website concept for Snuggle Inn Boarding Cattery, using your own logo, colours and photos. You can view it live here. No large upfront build bill: your first website is created as part of your subscription.
